

Attached are the handouts.

1. Interview (print on one page since we will pass out the two instruction sheets as we introduce the exercise)
2. Envisioning the future (last exercise of the session, again print on one page)
3. copy of slides to be printed 6 to a page (if you don't want to do this, we you can put the pdf version up on your site.). Could you look over the slides before you print to make sure that words/icons have not moved, I find with powerpoint that often happens.
